

# Gate Fitting Service.

---

If you need new gates or doors but you aren't sure how easy it will be to put them up, why not ask us for a free, no obligation quote for us to fit them for you. With our vast experience of erecting gates, we can normally spot problems before they *become* problems, and suggest ways to resolve the issue.

It's easy! Just ask a member of staff to arrange a site visit, and one of our trained fitters will phone you to arrange a convenient time to meet on site. They will take all of the necessary measurements, and discuss suitable designs to meet your requirements. You can look through a catalogue showing all of our standard gate designs, or come up with something yourself!

Within a few days of the site visit, you will receive a detailed quote, either by post or e-mail depending on your preference. The quote will be broken down, so that you can see how much you will be paying for the goods (gates, posts, ironmongery etc), and how much for the labour. If you decide to go ahead with either the goods by themselves, or the goods and the fitting service, then you can just give us a call, place the order and let us do the rest.
